## **DETAILED ACTION**

### ***Claim Objections***

Claims 8-20, 26, 27, 95-98, 121-123 and 130 are objected to because of the following informalities:

The recitation "circumferential groove" in claim 8, line 7 lacks antecedent basis. Claims 9-20, 26, 27 and 95-98 depend from claim 8 and are likewise objected to. Claims 121-123 and 130 have a similar recitation are likewise objected to. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 4-6, are rejected under 35 U.S.C. 102(b) as being anticipated by Rabe, U.S. 4,779,445.

Regarding claims 4-6, Rabe discloses a second tubular member (14) and a first tubular member (15) having an interior diameter substantially equal to the expanded inner diameter of the second tubular.

### ***Allowable Subject Matter***

Claims 1-3, 7, 21-25, 28, 61, 64-66, 68-77, 79-84, 86-94, 99-120, 124-129 and 131 are allowed

Claims objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record does not disclose or suggest all the claimed subject matter including relative burst strengths.

The prior art of record does not disclose or suggest all the claimed subject matter including plastically deforming the tubular members.

### ***Response to Arguments***

Applicant's arguments are persuasive. Therefore, the rejections have been withdrawn. However, upon further consideration, a new grounds of rejection is made.
